

FOR IMMEDIATE RELEASE

## WAYNE, NJ TLE CELEBRATES 10TH ANNIVERSARY

Wayne, NJ - TLE is excited to announce the 10 year anniversary of our Wayne, New Jersey Center.

For the last decade TLE has been providing Wayne residents with programs that deliver a dynamic accelerated curriculum in a fun environment. There was no better way to celebrate than have the whole town participate.

There were tons of fun activities for the community children, including a moon bounce house, face painting, arts and crafts, not to mention the cotton candy and the snow cones! Bubbles® The Elephant also made a special appearance to celebrate with TLE family and friends!

The Center Director of Wayne, Shelly Coss, who the preschool children endearingly call Mrs. Sunshine, believes “the safety and well-being of the children is most important”. Both the Center Director and Business Manager strive to make TLE at Wayne the home away from home for all the children.

“I’m passionate about my job and I’m passionate about the children. I’m here for the right reasons—to create a safe, loving environment for the children and make them feel at home,” said Coss.

TLE at Wayne has always done their very best to meet the needs of Wayne’s residents.

Wayne was the very first center to contract a Work and Family partnership with Toys ‘R’ Us. Once you tour the center, you will see that TLE’s positive learning environment is warm, friendly, stimulating and, most importantly, fun!

*“As you can see - We’ve made it 10 years! I can honestly say with every year, it gets more and more interesting. This was by far our most celebrated Open House since I have been with TLE in 2003! The staff really stepped up to show our visitors how amazing we are. This confirms why I am still happy to be part of The Learning Experience”. - Shelly and Pamela*
